Easy Cheese

If your idea of preparing for unexpected guests involves Saltines and cheese from an aerosol can, you might want to think about an upgrade. Cowgirl Creamery's "Big Cheese Party Box" comes complete with five artisan and farmstead cheeses, wild strawberry preserves, and two bags of Cowgirl Crackers—enough for 12 to 20 guests.

Paint Safe

Taking the brush to your flat white walls doesn't have to mean moving out of the room until the fumes clear. YOLO Colorhouse has a new collection of interior paints made from naturally occurring elements. The paints have zero volatile organic compounds and a durable finish similar to what you'd expect from conventional paint, only without the toxic fumes. And if that isn't reason enough, YOLO also has poster-sized color swatches (\$6.95 each) with real paint and repositionable tape on the back so you can move them from room to room.
